Damper Shaft Extension

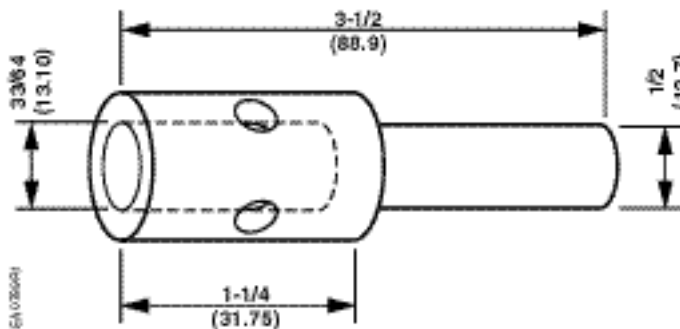

Figure 1. Dimensions in Inches (Millimeters).

Description

A 1/2-inch diameter damper shaft extension is available to facilitate the mounting of extended shaft damper motor assemblies to heating and ventilating or air conditioning units with short extended damper shafts.

This shaft extension is available as a kit. The kit includes the shaft extension and two set screws in a plastic bag.

Product Number

331-631

Accessories

Bushing kit No. 331-632 may be ordered in addition to the 331-631 in order to attach the extension onto a 3/8-inch diameter shaft. The bushing slips over the 3/8-inch shaft and fits into the 1/2-inch diameter hole of the extension. The bushing is slotted to permit the extension set screws to hold the shaft directly.
