

Damper Shaft Extension Kit for 1-inch Diameter Shaft

Product Description

The damper shaft extension kit consists of one 1-inch diameter shaft extension and two roll pins.

Product Number

333-194

Required Tools

- Drill and 1/4-inch drill bit
- Hammer

Expected Installation Time

15 minutes

Prerequisites

- None

Installation

1. Place the shaft extension over the damper shaft as far as it will go.
2. Use the two existing holes in the shaft extension as guide holes to drill through the damper shaft.
3. Insert the roll pins with a hammer.

The installation is now complete.
